

# QUALITY CHECK

Help us to improve postal service

## What is it all about?

This survey – called UNEX – focuses on the transportation time of international first class mail. Our task at Ipsos is to monitor the transit times.

## We are checking the postal quality and you are invited to help us!

For UNEX, hundreds of people across Europe send letters to each other and enter the data online. You could be one of them! Join the team and help us getting your mail delivered quicker and better!

## Your task

The main point of your task is to confirm the sent or receipt date of the test mail online at the survey website. This takes only a few minutes. We will provide you with prepared test letters, ready for you to send to participants in other countries. At the same time, you will receive letters from other participants.

## How can I take part in the survey?

Just register on our website: [www.ipsos-post-survey.com](http://www.ipsos-post-survey.com) and we will come back to you and provide you with further survey details. Join us on Facebook: [www.facebook.com/unexsurvey](http://www.facebook.com/unexsurvey)

## What do I get?

When taking part in one of our studies, you will collect bonus points for each month of your participation. You can exchange these bonus points for vouchers to your favorite stores or choose amazing gifts from our online shop. Check out our wide range of products on our website [www.ipsos-giftshop.com](http://www.ipsos-giftshop.com)
